SUMMARY

Computer Science and Engineering student with an 8.93 CGPA and hands-on experience in AI and full-stack application development. Skilled in C, Python, Java, SQL, and modern web technologies, with experience developing AI-powered applications and backend systems. Strong foundation in programming, problem-solving, and software development, with a keen interest in emerging technologies.

EDUCATION

B.Tech in Computer Science & Engineering (Expected Graduation: 2027) Oct 2024 – Present
GM University *CGPA: 8.93*

PUC Jun 2021 – Mar 2023
Vyshnavi Chetana PU College, Davanagere *CGPA: 89%*

SSLC Jun 2020 – Mar 2021
St Mary's Convent, Davanagere *CGPA: 88%*

PROFESSIONAL EXPERIENCE

AI Developer Intern @ Tekora AI Jul 2026 – Aug 2026
Bangalore

- Contributing to real-world AI and Full Stack Development projects using Java, Spring Boot, React, REST APIs, MySQL, and Postman.
- Collaborating on application development, testing, debugging, and API integration while following software development practices.

Software Quality Assurance Engineering Intern | SQAE @ Ministry of Defence, Government of India Apr 2026 – May 2026
Remote

- Performed requirement analysis, research, solution evaluation, and feasibility analysis.
- Developed the “Break Limits” concept using structured problem-solving and cost analysis.

Full Stack Web Development Intern (MERN Stack) @ WebStack Academy (WSA) Mar 2026 – Apr 2026
Remote

- Developed responsive full-stack web applications using the MERN stack while following SDLC best practices.
- Built REST APIs, integrated frontend and backend components, implemented responsive React.js interfaces, and collaborated using Git in an Agile development environment.

PROJECTS

NyayaConnect: Full-Stack Legal Consultation Platform [View Project] Jul 2026 – Sep 2026
Tech: React.js • TypeScript • Tailwind CSS • Node.js • Express.js • Supabase • Google Gemini API • REST APIs

- Developed a full-stack legal consultation platform connecting clients with legal professionals through lawyer discovery, appointment management, and secure user interactions.
- Integrated Google Gemini API, Supabase, REST APIs, and email services to support intelligent assistance and seamless platform communication.

Blockchain-Based Certificate Verification with QR Validation [View Project] Mar 2026 – May 2026
Tech: React.js • FastAPI • Firebase Firestore • Ethereum • Solidity • MetaMask

- • Developed a blockchain-based certificate verification system using React.js, FastAPI, Firebase Firestore, and Ethereum.
- • Implemented QR-based secure credential verification with tamper-proof authentication.

AgroSaarthi: AI-Powered Farmer Intelligence Platform [View Project] Jul 2025 – Oct 2025
Tech: Python • Google Vertex AI (Gemini) • Firebase • Speech-to-Text • Text-to-Speech • REST APIs

- • Developed an AI-powered agricultural assistant using Google Vertex AI (Gemini) for crop diagnosis and farming recommendations.
- • Integrated Firebase and REST APIs to deliver real-time AI responses.

AI-Based Community Health Early Warning System [View Project] Jun 2025 – Sep 2025
Tech: Python • Machine Learning • Anomaly Detection • Firebase • REST APIs • Web Dashboard

- • Developed an AI-powered disease trend detection platform using anomaly detection techniques.
- • Built REST APIs and an interactive dashboard for real-time health monitoring.

TECHNICAL SKILLS

Technical Skills: C · Python · Java · SQL · MySQL · React.js · Firebase · Google Gemini API · Git · Github · Postman · VS Code · OOP · REST APIs
Soft Skills: Communication · Teamwork · Quick Learning · Decision Making · Interpersonal skills
Languages: English · Kannada · Hindi

CERTIFICATIONS

Artificial intelligence A-Z 2026: Agentic AI, Gen AI, and RL Feb 2026
Udemy · [View Certificate]

Build Your Own Static and Responsive Website Mar 2025
NxtWave · [View Certificate]

Full Stack Web Development (MERN Stack) Internship Completion Certificate Apr 2026
WebStack Academy (WSA) · [View Certificate]

Software Quality Assurance Engineering Internship May 2026
Senior Quality Assurance Establishment (Small Arms) (SQAE), Ministry of Defence, Government of India · [View Certificate]

AI Intern Aug 2026
Tekora AI · [View Certificate]

ACHIEVEMENTS

- **Finalist of SAMVED National Level Hackathon** (Apr 2026) – Top 10 Finalist in SAMVED National Hackathon among 546 teams from across India.
- **Developed innovative AI, Blockchain, and IoT solutions under a national-level hackathon competition.**
